(INCLUDING FULLTIME EMPLOYEES)  
PART-TIME EVENING PROGRAMME**

**POSTGRADUATE  
ONLINE / ON-CAMPUS  
NFQ - LEVEL 8 (60 ECTS)**

For eligibility criteria and more information, please visit: [WWW.SPRINGBOARDCOURSES.IE](http://WWW.SPRINGBOARDCOURSES.IE)

## Software Systems Development (Higher Diploma)

### Higher Diploma (Level 8) in Software Systems Development (2 years part-time)

The part-time Higher Diploma in Software Systems Development (L8) is an in-depth software development upskilling programme aimed at technical professionals who wish to develop their career in the technology sector.

It is a two year part-time intensive course, suitable for those working fulltime, where learners will gain a comprehensive understanding of key technology fundamentals and modern software development techniques and skills, that are closely aligned to current employer needs.

#### Core skills/knowledge taught:

Operating systems, object-oriented software development, information management and database design & development, web and mobile application development, and cloud computing.

#### Target Students:

- Technology professionals seeking to upskill in contemporary software development practices and infrastructures; is suitable for those without formal level 8 Software/IT degrees who wish to develop their career in the technology sector;
- Suited for those with relevant technology experience who wish to upskill and re-enter employment in the technology sector.

## Programme Structure:

The programme comprises 10 taught modules and an Industry Learning Experience (for those currently not in employment).

**Start Date:** 25/01/2017

**Finish Date:** 14/12/2018

## Blended-Learning Delivery:

The programme will be delivered via weekly on-campus evening tutorials throughout each semester extensively supported by use of the moodle online Learning Management System.

Estimated time requirement: 6-10 hours/week per module (including 1 on-campus evening per week).

### YEAR 1 SPRING

Operating Systems

Information Modelling and Specification

### YEAR 1 AUTUMN

Computer Software 1

Development of Information Systems 1

Representation & Modelling

### YEAR 2 SPRING

Computer Software 2

Database Systems

### YEAR 2 AUTUMN

Mobile Application Development

Web Infrastructure

Cloud Computing

## Career Opportunities:

**Industry Sector:** Technology; IT Support groups within all other industry sectors.

**Skills Addressed:** Object-oriented programming and database development; web and mobile application development; cloud infrastructure.

**Sample Job Title:** QA/Software Test Engineer; Technical Support/Operations/DevOps Engineer; Software/Web/Application/UX Developer.

## Entry Requirements:

Level 8 honours primary degree, at minimum second class honours (NFQ or other internationally recognised equivalent), in a relevant engineering, computing, mathematics, science or technology discipline.

Applicants who do not meet the academic entry requirements but who have significant relevant experience in the technology sector (minimum 5 years) and are encouraged to apply under the University Recognition of Prior Learning (RPL) policy that allows recognition for both formal and informal learning, non-accredited personal and professional education and work based training. Applicants must also satisfy the English Language Requirements of the University.

## Fees:

The programme is free to all eligible students under the Springboard ICT skills conversion criteria, including those in fulltime employment. See Springboard website for details.

**Academic Contact:** Email: nikola.nikolov@ul.ie

**Entry, administrative and admissions queries:**  
Email: cpe@ul.ie

**Application Closing Date:** January 15th. 2017.

Applicants are advised to apply early as places on the programme are limited.

## HOW TO APPLY -

**STAGE 1:** Apply on [www.springboardcourses.ie](http://www.springboardcourses.ie) to check your eligibility and to register your interest in a programme at the University of Limerick.

**STAGE 2:** Under [www.springboardcourses.ie](http://www.springboardcourses.ie), go to the programme, click on the **More Details** tab and scroll to the **Applications Procedure**

This programme is subject to University of Limerick Academic Council approval and implementation

No guarantee is given that the programme, syllabus, fees or regulations may not be altered, cancelled or otherwise amended at any time.
