# The Journey to Enterprise Excellence Conference (JEEC)

Practical Applications of Lean and Six Sigma Improvement Methodologies

May 19<sup>th</sup> KBG-12, Kemmy Business School, University of Limerick

8.00 – 13.00

Six Sigma Yield Improvement Initiatives

Lean in the Lab

Lean in Service

Lean in Manufacturing

Design for 6 Sigma

Lean Utilities

Lean in the Call Centre

Lean in Health Care

The conference will present practical applications of continuous improvement methodologies in a multitude of service and industry related organisations. Unlike standard conferences of this nature that outline organisation improvement initiatives, the JEEC conference will introduce applications from on the ground practitioners. Through practical demonstrations of the tools and methodologies the speakers will introduce real life examples of the tools in use, the strengths and weakness and more importantly the results achieved from these applications. **DellEMC, Zimmerbiomet, Ranbaxy, Lufthansa, Abbott Vascular, Abbott Diagnostics, Health Business Systems, Virgin Media, J&J Vision Care** are some of the organisations that will share their applications on the day. So if you are thinking about starting or are in the middle of your **Journey to Enterprise Excellence** this is the one conference you will not want to miss in 2017
